MACON, Oct. 18, 1861.

The action of the Convention in regard to deciding against the propriety of an advance by government to the planters, the opening of our ports free to all the world's ommerce, and allowing the exportation of cotton in return for importations, has already reached you. But there was one important matter passed over which requires the early and earnest attention of the country. I mean the resolutions proposing the needful preparatory legislation to prevent our trade and finances falling again under the control of New York. These resolutions, I think, expressed the sentiment of the country, as they certainly did aim a deadly blow at the North, as appeared upon the debate. They were:

1. To place a discounting duty of twenty per cent. on all foreign goods imported into he Confederate States through or for ascount of Northern parties for a period of ten years.

To place a direct "income tax" upon all Northern exchange or bills payable there, for a similar period.

3. Recommending our banks and merchants to make all our cotton produce bills accepted payable in Europe, at least to the extent of our foreign importations.

These resolutions were known as the "direct trade resolutions." The friends of The friends of direct trade taking the position that because of the artificial means employed in the late Union to divert our trade North, it became absolutely necessary for the South to aid Union flag, and sent notice to the women Southern trade by legislative enactment to bresk away from the restraint upon our commerce, so long and so unjustly imposed by the American government.

The resolutions were postponed in the Business Committee and passed over from time to time, until it was too late to debate them. They were, however, called for by the Convention in the last hour of its session, and would have passed but for the argument put forward by Gen. Duff. Green, as chalrman of the committee, followelby a parliamentary movement which cut off the debate and laid them on the table.

WASHINGTON, Oct. 31 .- Special to the Com. mercial -A petition is in circulation here, and numerously signed, which appeals to the day of signing the original compact of the Government to furnish fuel to the people government on board the Mayflower. of Washington at reasonable prices.

The War Department did not recognize Gen. Lane, of Kansas, as having authority over a brigade. His commission was issued by a State, and did not proceed from the President. He has sent here for a corps of engineers and sappers and miners, but the Government refuses to grant the requisi-

Private advices lately received from Kentucky are very encouraging. The rebels are represented to be falling back in a rather rather hopeless manner. This is better news than that reported by Gen. Thomas. We are officially informed that the great

naval expedition sailed without written orders. There is nothing of interest to communioate from the Potomac to-day.

Weather is fine, and the troops in excel-

lent spirits. The Baltimore American of to day contains an account of a visit of M. Brommel, a merchant of Brooklyn, to Beauregard.

Brommel arrived at Baltimore from Fort Monroe. According to report, he visited Beauregard at headquarters, one mile from Richmond, on Wednesday of last week, and conversed several times with him during the day. Beauregard reviewed 15,000 men of Johnston's command, a most imposing pageant, and was cheered most enthusiastically. Beaureguard stated that as far as he was concerned he preferred acting entirely on the defensive, satisfied with the repnise of the Federal army whenever it made any advance of importance. warmly denied that aliens were prevented from leaving the State of Virginia.

The following order was issued from the Postoffice Department to day:
"The Postmaster-General orders that all

letters by any acting field or staff officer in the service of the United States shall be forwarded in the mails without prepayment of postage, in accordance with the provisions of the eleventh section of the act to employ volunteers, etc. Approved July 22, 1861. F. P. TROTT, "Chief Clerk."

The stationery contract for the House of Representatives was awarded to day to Phillips & Solomons, Latimer & Bro., and H. Taylor.

There have been no arrivals to day from the lower Potomac. The Cœur-de-Lion started down to night with coal for the flotilla.

To-day all is quiet, up to this afternoon, on the entire line of the Potomac. There seems no doubt but that the rebels have a large number of fleet boats at Occoquan creek, manufactured for Fredericksburg, and intended to use in crossing the Potomac.

New York, Oct. 31 .- The jury in the pirate case stood eight in favor of convic-

tion and four of acquittal.

The Herald's Washington dispatch says that the President has informed certain United States Senators, who called upon him yesterday to know when a forward march was to take place, that the responsibility of such a movement is left with Gen. McClellan, and that it is the purpose of the Executive to sustain him in his undertaking, whatever his determination may be. The Senators left satisfied about ten o'clock

yesterday. A boat containing seven rebels with a flag of truce was seen coming across the Potomac from the mouth of Quantico creek. Captain Adams, of the 1st Massachusetts regiment, went down to the shore at Budd's Ferry to receive it When within about 1,000 yards from the Maryland side the rebols threw overboard a barrel, which they anchored like a buoy, and taking in the flag of truce, they pulled back to the Virginia side as fast as possible.

In the afternoon heavy firing was heard down the Potomac from Budd's Ferry. The Express states that a few days since John A. Kennedy, Superintendent of Police, issued what seems to be a secret order to the police, relative to persons about visiting foreign countries. The order directs that every passenger bound outside the country be examined by the police, who are

to see that all have passports. The surveyor of the port seized, to-day, the ship Joseph W. Dyer, two-sixteenths of which are owned by Joseph Phillips, of Louisiana.

FREMONT'S HEADQUARTERS, CAMP LYON, SPRINGFIELD, Mo., Oct. 28.—A special to the St. Louis Republican says: Gen. Fremont and staff arrived here yesterday. Benton Cadets, Col. Carr's cavalry, Major Holman's Sharpshooters, and Gen Sigel's command, also arrived during the day, finding no professed rebels in the place. Our troops were received with delight, the stars and stripes being displayed at numerous houses, and men, women and children waving handkerchiefs from almost every doorway. Major White of the Scouts, whose command started with Major Seagoni for Springfield, had been quite ill, and was captured by the rebels while riding in a buggy, and, after the fight, was taken several miles out of town by a guard of 20

rebels, but was rescued by a party of Green county Home Guards, and is now here. The loss of Fremont's body guard in their desperate charge of Friday last was 15 killed, 23 wounded, and 26 missing. Three of the wounded have since died, and doubtless many of the missing will soon report themselves. The rebel loss is stated at from 50 to 60 killed, and 40 to 50 wounded. The rebels were commanded by Colonels Johnson, Frazier, Price and Turner; the latter two of whom are said to have been killed. General Fremont will probably remain here until the other divisions of the army arrive.

General Price is still reported to be in the vioinity of Carthage, but nothing definite is known of his whereabouts.

JEFFERSON CITY, Oct. 31.—A special to the St. Louis Democrat says: The compromise entered into by Gen. Henderson and the rebels in Calloway county did not include the band of robbers which plundered James S. Ballou's premises a few days since. That band will be summarily dealt with. Other measures besides the compromise have been taken by Gen. Prentiss to preserve quiet in these turbulent counties. A detachment of Col. Boomer's regiment, under Capt. Koop, day before yesterday broke up a small camp of rebels at Coot's prairie, capturing a lot of arms and their

camp equipage.

Intelligence has reached here that Gen.
Sigel has attacked and defeated Price's rear guard at Bolivar and took Rains prison-This, however, can only be true in part as Gen. Sigel's division was in Springfield on Monday last. If a fight has taken place at or near Bolivar, it must have been with at or near Bollvar, it must have been with some of the forces belonging to General Asboth's division. Gen. Prentiss has gone out from here on another secret expedition.

### River Matters.

ARRIVALS-Major Anderson, Cincinnati Eugene, Henderson; Nashville, Cincinnati. DEPARTURES-Major Anderson, Cincinnati; Nashville, St. Louis; Hetty Gilmore, Henderson.

WEATHER AND RIVER .- Yesterday was dull, gloomy, raw, ohilly, ugly, disagreeable day, looking and feeling like snow, without a peep of the sun the entire day. The river was still falling last evening, with five feet water in the canal by the mark.

.....At the city wharf business was ex cessively dull—the Argonaut picking up a little freight. The Nashville came in from Cincinnati bound for St. Louis, leaded to the Cincinnati bound for St. Louis, leaded to the guards with Government stores and army drilled and disciplined corps in the regular equipments.

FOR CINCINNATI. - The Superior is the mailboat at noon to-day for Cincinnati. .....The Hetty Gilmore left Portland with a very fair trip of freight.

.....The steamer Eugene arrived vesterday with a very fine trip from Henderson, and we are indebted to the clerk for a copy of her manifest. She brought 72 barrels of apples, 1,373 bags of wheat, 297 bags of oats, 20 barrels of flour, and sundry small lots of miscellaneous goods.

HENDEBSON .- Almost the only trade we have now is with Henderson and intermediate ports. We have two boats up to day for that port. The Big Grey Eagle, in charge of Capt. Taylor, Kinney Smith clerk, and the Eugene, in charge of Capt. D. F. Sayre, with A. M. Davidson, George Ashcraft and Ed. Ford clerks. Both boats will push out from the Portland wharf this afternoon.

.....The St. Louis Republican of the 30th has the following intelligence: The river here is falling steadily. In the 24 hours ending at 10 o'clock, A. M., it fell

three inches, and was then eight feet 44 inches above low water mark in December, 1860. The Illinois river is falling, with 5 feet in the channel from Peoria down.

The Upper Mississippi is falling from St. Paul down, with 41 feet on the upper, and 3 feet for a steamboat on the lower rapids. Below Keokuk there is 6 feet in the channel. The Missouri river is falling from Leavenworth down to the mouth, with 4 feet in the

channel. Very little business is doing on the Missouri The Government boats make ccca sional trips, and some half a dozen of the regular Missouri river packets are endeavoring to make a living by carrying freight

and passengers The weather is clear and blustering. Business on the levee is dull.
